Material Aspects:

CITADEL SECURITIES LLC:
(CDRG)

Green Pier Fintech LLC does not receive payment for order flow or have a profit-sharing arrangement related to any order flow routed to wholesale market makers

Cboe EDGX Exchange, Inc.:
(EDGX)

Green Pier may incur fees or receive rebates for orders executed on equity exchanges. Green Pier orders generally meet the exchange's definition of retail, and as such Green Pier attests that its retail order flow is eligible for any exchange economics or order handling associated with that designation. In addition, some Green Pier orders may qualify for participation in the exchange's "retail priority" program, and as such Green Pier attests that those orders are eligible for order handling associated with that designation. Rebates are generally for limit orders required to be displayed on exchange per the SEC Limit Order Display Rule but may also include marketable orders executed on certain exchanges. Non-Marketable Limit orders routed to Cboe EDGX are generally attested as retail, meet the exchange's definition of "Retail Order, adds liquidity", and qualify for the base rebate rate. Economics associated with Market orders, Marketable Limit orders and Other orders may represent a variety of different interaction types on the exchange, including but not limited to: displaying limit orders on the exchange; and removing liquidity on the exchange. The per-share economics described on this report represent a mix of interactions on the exchange. Fees and rebates are set by exchange rules, subject to SEC approval, and are non-negotiable. Visit the CBOE EDGX website directly for detailed price lists: https://www.cboe.com/us/equities/membership/fee_schedule/edgx/. Orders to each venue are categorized as "market", "marketable limit", "non-marketable limit" or "other" based on market conditions and the parameters of the order that Green Pier routes to that venue. Orders categorized as "Other" may include special order types (e.g. stop orders, All or None, etc.) or orders that Green Pier routes as mid-point

Non-Marketable Limit orders routed to Nasdaq are generally attested as retail, meet the exchange's definition of "Rebate to Add Displayed Designated Retail Liquidity", and qualify for the base rebate rate. Economics associated with Market orders, Marketable Limit orders and Other orders may represent a variety of different interaction types on the exchange, including but not limited to: participating in the exchange's opening or closing auction; displaying limit orders on the exchange; and removing liquidity on the exchange. The per-share economics described on this report represent a mix of interactions on the exchange. Fees and rebates are set by exchange rules, subject to SEC approval, and are non-negotiable. Visit the Nasdaq website directly for detailed price lists: <https://nasdaqtrader.com/Trader.aspx?id=PriceListTrading2>. Orders to each venue are categorized as "market", "marketable limit", "non-marketable limit" or "other" based on market conditions and the parameters of the order that Green Pier routes to that venue. Orders categorized as "Other" may include special order types (e.g. stop orders, All or None, etc.) or orders that Green Pier routes as mid-point.
